About **VIGNAN'S UNIVERSITY**

Vignan University (VFSTR), the flagship institution of the Group offers to its student's quality academic programmes, innovative leadership development opportunities and a stimulating campus environment. The University strives to make the experience of each student a transformative one. The institution is NBA accredited, NAAC accredited with 'A' grade. Located in Vadlamudi, a suburb of Guntur city, the University provides a pollution free, clean environment.

Address for Communication:

Dr. Nagaraju Devunuri

Dept. of Chemistry,
Vignan's Foundation for Science,
Technology and Research (VFSTR),
Vadlamudi, Guntur - 522 213, A.P.
Phone: +91 9030784939.
Email: naag1977@gmail.com

About the **Seminar**

The Indo-French International Seminar on Exploring contemporary vistas in applying (Organo)catalysis for Pharma Industry: For Sustaining Future' will bring together academicians, scientists and industry people on a common platform to discuss the new trends in (Organo)catalysis.

The greatest challenge to (organo)catalysis in the coming decades would be the search for sustainable sources of elementary organic molecules such as amino acids used in mild conditions along with operational simplicity, functional group tolerance, wide applicability and commercial application of (organo)catalysis as economically competitive alternative for finding the solutions was hampered by a variety of obstacles such as lack of suitable chemical entities which will work with low catalyst loading for transforming complex functional group materials into products and suitable techniques for preventing catalyst poisoning from by-products with industrial application profiles.

The scientists and students from Pan-India and France are expected to participate in this conference to share, stimulate and discuss a sizeable number of ideas from both academic or industrial scientists and students.

Who can attend

Seminar is open to postgraduate and PhD students from Institutes, Colleges and Universities in India. Applicants pursuing PG /PhD programs in any Chemistry, Material and Chemical Biology of allied sciences are eligible. Total numbers of seats are limited to 50.

For Registration :

<https://forms.gle/6oQnmwoHzuZffVTF8>

IMPORTANT DATES :

Remember to register before

15 November 2024

We look forward to meeting many of you on 11 December, 2024, at Vignan University Guntur, A.P.
